

2. Dominican Republic

Act 66-07, 22 May 2007¹

National Congress
on behalf of the Republic

CONSIDERING that the maritime delimitation of the Dominican Republic should be carried out in accordance with the best interests of the nation and in conformity with the rules governing the international law of the sea and with geomorphologic, terrestrial, marine and underwater features;

CONSIDERING that the marine resources and assets of the seabed and its subsoil in themselves constitute a potential for national development that should be enhanced by the Dominican State;

CONSIDERING that Act No. 186 of 13 September 1967 on maritime delimitation contains defects related to universally accepted jurisdictional areas which undermine our sovereignty and limit our possibilities of gaining access to marine sources that are vital to economic development;

CONSIDERING that the 1982 United Nations Convention on the Law of the Sea is a valid instrument that defines marine areas and their features;

CONSIDERING that maritime areas themselves and the riches contained therein are vital sources for national development;

CONSIDERING that on various occasions in the past there have been attempts to alienate part of the national territory, in contravention of the principles of the Constitution of the Republic;

CONSIDERING that the extension of the territorial sea at the same time implies a need to recalculate the extent of the other marine areas, especially the exclusive economic zone;

CONSIDERING that it is necessary to establish institutions and to accept resources to research, quantify, conserve and make rational use of the riches contained within the territorial sea and exclusive economic zone;

CONSIDERING that the proposal to assume the status of an archipelagic State, presented to the National Congress by marine expert Carlos Antonio Michelén, has been duly considered and studied by two committees in the Chamber of Deputies and submitted for public discussion, and has also been endorsed by the most qualified international bodies in that field, thereby proving its validity under international law;

GIVEN the 1982 United Nations Convention on the Law of Sea;

¹ Transmitted through a note verbale from the Permanent Mission of the Dominican Republic dated 23 October 2007 addressed to the Secretary-General. Original: Spanish.

Article 10. The sovereignty of the Dominican Republic extends to the territorial sea, the seabed and subsoil and the living and non-living resources contained therein, as well as to the airspace over the territorial sea.

Article 11. The Dominican Republic, in accordance with international law, respects the right of innocent passage through its territorial waters and the superjacent airspace, without prejudice to the right of the Dominican State to designate passage routes.

Article 12. The Dominican Republic does not regard as innocent passage through its archipelagic and territorial waters, or its superjacent airspace, the movement of vessels and aircraft containing cargo consisting of radioactive substances or highly toxic chemicals which may be used as instruments of mass destruction or to cause serious harm to human health or the environment.

Article 13. The contiguous zone includes the marine area contiguous to the territorial sea extending 24 nautical miles measured from the archipelagic baseline in the direction of the high seas. The Dominican Republic shall exercise jurisdiction over this zone as provided in the 1982 United Nations Convention on the Law of the Sea (Montego Bay).

Article 14. An exclusive economic zone is hereby established, consisting of the marine area adjacent to the outer limit of the contiguous zone and extending up to 200 nautical miles measured from the archipelagic baseline in the direction of the high seas. The outer limit of the exclusive economic zone is defined by a set of straight lines connecting points whose geodesic coordinates are the following:
