

**Order No. 191 of 27 May 1963 on the Delimitation  
of the Territorial Sea of Greenland**

**Article 1**

- (1) The territorial waters of Greenland shall consist of the internal waters and the territorial sea.
- (2) The territorial sea shall comprise those areas of the sea which to landward are bounded by the lines specified in article 2 and to seaward by lines drawn in such a manner that the distance from every point on these lines to the nearest point on the inner boundary line is three nautical miles (5,556 metres).
- (3) The internal waters shall comprise those water areas, such as harbours, harbour entrances, roadsteads, bays, fiords, sounds, belts and other waters, which are situated inside the lines specified in article 2.

**Article 2**

The lines which, in accordance with article 1, are taken as a basis for the delimitation of the territorial sea and the inland waters shall consist of the coastline (low-water mark at mean spring-tide) or of straight lines between the following points:
