

- (f) A straight line passing through the south-eastern tip of Isla Isabela, near Punta Essex, and intersecting the southern extension of the line joining the outermost projecting point of the western coast of Isla Fernandina, approximately in its middle, with the western tip of the southern sector of Isla Isabela, in the vicinity of Punta Cristóbal;
- (g) From this point of intersection a line passing through the western tip of the southern sector of Isla Isabela, in the vicinity of Punta Cristóbal, to the outermost projecting point on the western coast of Isla Fernandina, approximately in its middle; and
- (h) A straight line to Isla Darwin.

Article 2

The sea areas lying between the lines described in article 1 (I) and the coast line on the continent, and within the lines described in article I(II), in the Colón Archipelago, shall constitute internal waters.

Article 3

The Hydrographic and Oceanographic Service of the Navy, in cooperation with the Military Geographic Institute, will perform the necessary geodetic and astronomical work for determining the geographic coordinates of the reference points throughout the lines in both the continental coast and in the coast of the Galapagos Islands and the outer limits of the territorial sea, and will also establish the azimuths and extensions of the segments of each traverse described in Article 1, and any other technical data

Minister of National Defense
