Mr. Chair,

The impact of Covid-19 pandemic exacerbates pre- existing challenges and demand extra efforts to

, including eradicating poverty in all its forms and dimensions by 2030, ending hunger and achieving food security and improved nutrition for all.

It was with the collective efforts we managed to have our document that aims at recognizing, inter alia, the right of everyone to have access to safe and nutritious food, consistent with the right to adequate food and the fundamental right of everyone to be free from hunger while delivering to the Decade of Action and delivery for sustainable development. To this end, Iraq attaches special importance to the current session of CPD and its special theme, which is being held during unprecedented circumstances.

While the document contains many positive elements and represent a demonstration of the endeavor to achieve sustainable development, the document also contains certain terms and references that Iraq wishes to explain it in accordance with its national laws and policies. In pp.22, and op.13 Iraq views the references to (sexual and reproductive health and reproductive rights/ SRHRR) in this document in accordance with

ICPD.
