Thank you, Chair.

treaty framework. In connection with this topic, since 2018, the Committee has been reviewing

consideration to a limited set of further proposals for revisions to the regulations, but deferred

for transparency and accessibility of treaty information, and ease of use. We commend the Secretariat for the efforts it has made in pursuit of these goals.

additional changes to the regulations beyond those made in 2018. However, in the interests of stability and predictability in the registration and publication regime, we do not believe the Committee should take up revision of the regulations as a routine matter. Particularly in light of the substantial work the Committee has already done on this matter in recent years, including its consideration of further revisions to the regulations during this session.
