* The Monterrey Consensus is a key document of the International Conference on Financing for Development, which was held in Monterrey, Mexico, in 2002. It sets out a vision for financing for development and provides a framework for action. The Consensus is organized into four main sections: Introduction, Financing for Development: A Shared Responsibility, Financing for Development: A Shared Responsibility, and Financing for Development: A Shared Responsibility. The Consensus is a landmark document that has shaped the international development agenda for many years.

I. Confronting the challenges of financing for development: a global response
